MEMORANDUM FOR:

John P. O'Reilly Lee H. Wigren

SUBJECT

: Letter of Commendation

No have just completed a high level, sensitive conference of considerable importance to both this Directorate and the Agency. You had the responsibility for virtually every aspect of its organization and administration. The planning and execution had to be done with comprehensive attention to detail without losing sight of our overall objectives. For weeks in advance and, particularly, during the conference itself you carried out your duties with energy, skill and competence which have reflected very creditably upon the Agency. You showed considerable tact and alertness in anticipating problems before they could arise. The close and cooperative relationship you established with the command and support personnel at the meeting site, and your obvious rapport with our various guests, also contributed to the efficient yet cerdial environment in which the conference was conducted. You faced demanding and often complex responsibilities, and I commend you for your excellent performance in meeting them.

MEMORANDUM FOR: Chairman, DDO Evaluation Boards

FROM

Chief, Counterintelligence Staff

SUBJECT-

Promotion Recommendation for Lee H. Wigren

1. I recommend that Lee H. Wigren be promoted from GS-13 to GS-14. Mr. Wigren has been in grade since May 1962 and is now a GS-13, Step 8. He currently occupies a GS-15, Operations Officer, Branch Chief position.

- BA degree in Russian Studies from Yale University in 1947 and an MA degree in History from Harvard University in 1950. He entered on duty with CIA as a GS-06 clerk in March 1951. He subsequently attained professional status as an Intelligence Officer in 1952 and since that time has served variously as Intelligence Officer, Area Operations Officer, Biographics Officer, Instructor, and Operations Officer in DIV/D, Europe Division, SE Division, OTR, and since 1968 the Counterintelligence Staff.
- 3. Most of Mr. Wigren's career has involved CE and CI matters. He has been primarily concerned with various aspects of the Counterintelligence research and analysis activity of SE Division and, since 1968, the Counterintelligence Staff. In the course of his various assignments, he has developed a broad and deep substantive knowledge of the Soviet intelligence and security organs and their activities which has made him one of our more knowledgeable and effective CI analysts. He is careful and thorough in his research, he writes well, and he has an established reputation within and without CIA as an interesting and effective lecturer concerning counterintelligence matters. His career record reflects a consistently professional performance of above-average quality in his various CIA assignments. Additionally, that record is documented by several letters of appreciation from other US Government agencies and foreign liaison services for the highly professional assistance provided them by Mr. Wigren in the counterintelligence field.

- Research Branch of the CI Research and Analysis Group. He is performing the duties and responsibilities of this GS-15 position in a satisfactory manner. He manages the complex activities of six staff officers and nine contract personnel associated with this Branch and is responsible for the several research programs in which they are involved. He strives to direct and combine the best talents of the personnel under his supervision toward the achievement of his Branch's objectives while remaining sensitive to the personal and career interests of his employees. He is especially effective in dealing with the several contract personnel (including former defectors) under his supervision who, because of their professional status and diverse ethnic backgrounds, sometimes require especially understanding treatment.
- 5. In summary, Mr. Wigren is effectively and satisfactorily performing the duties of a GS-15 Branch Chief in a position which requires specialized substantive knowledge and the ability to manage activities and supervise personnel. I believe that his demonstrated ability in this position and his sustained record of job performance at an above-average level since his last promotion clearly merit his promotion to GS-14 at this time.

Mr. William E. Nelson Deputy Director for Operations Central Intelligence Agency Washington, D.C. 20505

Dear Mr. Helson:

- (C) It is a distinct pleasure for me to express my sincere appreciation to Messrs. Raymond Rocca, William Decker, William Donnelly, John Bogart, Joseph Flaherty, Lee Wigren, Robert Thomas and Paul Johnson, all members of your staff, for their outstanding participation and support of our new "Soviet Intelligence Elective Seminar." This seminar provided an in-depth examination of the Soviet Intelligence and Security Services for twelve graduate degree candidates encolled in the School's new Masters Degree Program in Strategic Intelligence.
- (U) Each Agency participant displayed a thorough knowledge of the subject interlaced with personal experiences and analyses which made each presentation unique and extremely valuable for the seminar members. In addition to the participants' formal presentations, they also spent valuable time informally talking with individual members of the seminar and faculty. Our students and faculty were enthusiable in their praise of all aspects for the program; and they especially appreciated the candid discussions of the problems Soviet intelligence poses both for the Agency and the Intelligence Community. Please convey to each participant our sincere thanks for his outstanding presentation and his interest in the School's Graduate Program.
- (U) Your continued cooperation in assisting this School to educate students whose intelligence capabilities will be an asset to the Services and Intelligence Community is deeply appreciated.

Sincerely,

W.J. Turas

Mr. R. Helms, Central Intelligence Agency, WASHINGTON D.C.

Doar Kur Telms

During a recent conversation with one of my officers in connection with the vinit of Mr. Henry Planake and Mr. Lee Wigren, it suddenly dawned on me that although I had, at the time, requested both Mr. John Mortz and Messen. Planake and Wigren to convey my sincere thanks and good wishes to you - which I am sure they did - I had not yet written to you personally in connection with the matter.

Hank and Lee, as we affectionately remember them, proved themselves to be most worthy ambassadors of your country, as well as your service and I feel convinced that they left behind them a number of sincere new friends. They are both obviously experienced officers with a wide and thorough knowledge of their respective fields and we found their lectures highly instructive.

Fortunately, circumstances permitted the majority of my senior efficers to attend the course in Pretoria and the lucid manner in which Hank and Lee delivered their loctures, brought us all under a new and deeper awareness of the vital role being played by the United States in the struggle against international communism, and for the very great need of unity and closer co-operation amongst the peoples of the free world if the communist enalogat is to be successfully withstood.

Please once again accept my sincere thanks for having made two such able and experienced officers as Hank and Lee available for the purpose of lecturing to us.

Kindest regards

Sincerely,

----- Major-General

H. J. VANDEN BERGH.

Mr. John H. Richardson Director of Training Central Intelligence Agency Langley, Virginia 20505

Dear Mr. Richardson:

It is a pleasure to express the appreciation of the Staff and Faculty of the U. S. Army Intelligence School for the presentation by Mr. Lee A./Wigren, at Fort Holabird, on 8 March 1967, to personnel attending Class 67-SO-2 of the Senior Foreign Officer Intelligence Course.

Mr. Wigren's discussion of current trends in Soviet foreign policy was factual and timely. His examples of Soviet activity in the foreign policy sphere in Vietnam, the Middle East and Africa were of definite value to this class. The talk was highly interesting and was enthusiastically received.

Thank you for your continued cooperation in our guest speaker program. Would you please convey to Mr. Wigren the appreciation of the Staff and Faculty.

Sincerely,

MEMORANDUM FOR:

Mr. Lee H. Wigren

Head of 😝 Career Service

SUBJECT

Notification of Con-eligibility for Designation as a Participant in the CIA Retirement and Disability System

- . I. As you may know, we are in the process of reviewing the employment history and current career field of all employees in the Agency to identify those who are eligible for designation as a participant in the new CIA Retirement and Disability System. In this process, the initial review of each case is made by the individual's Career Service. If the Head of his Career Service nominates him for participation in the System, this nomination is reviewed by the CIA Retirement Board which recommends final action to me. However, if the Head of the Career Service advises that the employee does not meet the basic requirements of HR 20-50 for participation, I have accepted this finding without further review by the CIA Retirement Board. This practice has been adopted in the interest of expediting this screening process so that those employees who are eligible to participate in the System may be designated participants as soon as possible.
- 2. In your case, the Head of your Career Service has advised me that you do not meet the requirements of HR 20-50 for designation as a participant and I have accordingly made the formal determination required by the regulation that you are not eligible for designation. From a review of your record it appears that the decision of your Career Service was based upon the fact that you have 15 years or more of Agency service, but have not as yet performed 60 months of qualifying service as required by regulation. My determination that you are not eligible at this time for designation in no way affects your current status under the Civil Service Retirement System, nor does it preclude reconsideration of your eligibility to participate in the CIA System if you should meet the requirements for designation in the
- 3. Should you desire further information concerning the requirements for designation as a participant in the CIA Retirement System, I suggest that you read paragraph e of HR 20-50 and paragraph 5 of the Employee Bulletin dated 30 July 1965, entitled "Public Law 88-643, The Central Intelligence Agency Retirement Act of 1964 for Certain Employees."
- 4. It is always possible that the records upon which the determination made in your case may have been incomplete or inaccurate regarding your actual employment history with the Agency. If, after studying the materials cited above, you have questions regarding the determination that you are not eligible to participate in the CIA Retirement System, please feel free to contact officials of your Career Service. They are familiar with the details of your case and will gladly discuss them with you. In addition, you may wish to discuss your case with the CIA Retirement Staff located in Room 205, Magazine Building (extension 2847). If such discussions do not resolve any questions you have regarding your eligibility, you may request that your case be formally considered by the CIA Retirement Board. However, this request must be made with-In 30 days of the date of this memorandum.

SUBJECT

Promotion Recommendation for Mr. Lee H. Wigren

- In recommending most strongly Mr. Wigren's promotion from GS-12 to GS-13, I feel it is only necessary to emphasize Mr. Wigren's educational background at Yale and Harvard, where he received a B.A. and M.A. in History and Russian; his ten years of work in the Agency on Soviet intelligence in the CI Staff, FI/D, and SR Division; his ability during the past three years in SR to supervise a group of over twelve people performing a variety of research functions, ranging from major studies to operational aids, on the RIS; his appreciation of the counterintelligence role of the Agency and his furtherance of our mission in that respect by the high standards of excellence of his production; and his vigor in assuming and carrying out the duties of a job formerly held by a G3-15.
- 2. Mr. Wigren has been in grade for almost four years. He has had responsibilities and performed duties far above his grade level for three of those years while dealing with practically all of the DD/P, other agoncies of the government, and foreign intelligence and security services. He is an acknowledged expert in his field and equalled in it by no one clse in the Agency, and possibly in the government as a whole. His fitness reports have reflected superior performance in every important respect and outstanding performance in many ways, with the highest personal characteristics possible, doing a job on a uniquely difficult subject, while using and training personnel who all too often have had little or no background for their positions.
- In my opinion, Mr. Wigren is the most qualified GS-12 in the Division for promotion to G3-13, and I bolievo that the above comments and our four previous promotion recommendations amply support me.

John To Tany

JOHN H. MAURY.

MEMORABDUM FOR: Chief, SR/SS

HUBJECT

Promotion Request, Lee H. WICHER

- 1. It is requested that Mr. Wigren be promoted to GE-1].
- 2. Mr. Wigron received his EA from Yale in 1947, majoring in history and huselan language and area studies, and his MA from Harvard in 1948 in history. He came on duty with the Soviet Intelligence Branch of what was then Staff C in March 1951, and stayed with that branch as a research analyst on Soviet Intelligence until after its transfer to SP/CE in early 1955, when he transferred to WE Division in search of a field assignment. Such assignment having become increasingly doubtful by 1957, he transferred to FI/D where he remained until assignment to this Division in April 1959 as Chief of SR/CE/Research.
- 3. I night as well admit at the start that I have known Er. Vigren since we were in high school together and I have always been impressed with his ability, particularly in the research field. Additionally, he has been in or close to research on Soviet Intelligence for the past 8} years. This, combined with his academic background in research methodology, history in general and Russian history in particular, made him my natural choice for his present job although I had never worked directly with him before. In the past five months, I have had reason to be happy about my choice. The main need in ER/CE/Research has been for an established program of studies which we might expect to be produced in regular order; this has been a need, to my personal knowledge, since 1955. Ex. Migran has quietly set up such a schedule with realistic target dates. is in touch with each study at each joint during its production, and shows every indication of meeting his deadlines. He has a long-runge interest in counter-intelligence, knows what he is doing and way, and is able to orient his subordimntes properly and direct their efforts.
- 4. Although Mr. Wigner has been in grade only a relatively short time, since April 1958, I feel that he is doing a difficult job excellently and that his promotion is justified on the basis of academic background, Agency experience and current performance.

VIA:

SUBJECT:

Personnel Action (Promotion)

- 1. It is recommended that Mr. Lee WIGREM be promoted from GS-11 to GS-12. Mr. Wigren has been in his present grade since 16 January 1955. Since he was assigned to Division D on 23 September 1957, he has been under my supervision. His performance during this time has been at least at a G3-12 level.
- 2. Er. Wisren's duties warrant a GS-12. He is primarily engaged in research of a complex and tedious nature which requires a high degree of professional competence.
- 3. ar. Wigren deserves a promotion on the besis of his job performance. Since coming under my supervision, he has consistently shown himse's to be a conscientious, dilligent and capable employee; and the him quality of his reports are indicative of his intelligence, flair for research, and ability to write effectively.

### APPLICATION FOR MEMBERSHIP in the CAREER STAFF of the CENTRAL INTELLIGENCE AGENCY

To the Director of Central Intelligence Sir:

I submit herewith my application for membership in the Career Staff of the Central Intelligence Agency as defined below:

"The Career Staff of the Central Intelligence Agency is a group of carefully selected and trained individuals who accept an obligation to devote themselves to the needs of the Agency, and who intend to make a career with the Agency."

In accordance with this definition, I desire to devote myself to the faithful performance of duty in the Central Intelligence Agency, and I accept the obligations and conditions of that service which are determined to be essential to the furtherance of its mission.

I am aware of the many restrictions necessarily placed upon me by virtue of the security requirements inherent in my employment by the Central Intelligence Agency. I am also aware that as a member of the Career Staff, it will be my obligation to serve anywhere and at any time and for any kind of duty as determined by the needs of the Agency, and I have been assured that in order to carry out this policy, full consideration will be given to my particular capabilities, interests, and personal circumstances. By virtue of this application for membership and upon my acceptance in the Career Staff, I am assured that, with continuing satisfactory work performance and conduct on my part, just and equitable attention will be accorded my personal progress during my tenure in the Career Staff. I am also assured that, on my satisfactory completion of any assignments, I will be offered reassignments which are compatie ble insofar as possible with my abilities and career interests, and that I shall be entitled to the benefits now available or to be made available in the future to members of the Career Staff of the Central Intelligence Agency.

Central Intelligence Agency National Security Council 2480 E Street !!!! Washington, D.C.

Dear Sir:

I wish to inquire about openings with the Central Intelligence Agency for a man of my qualifications.

I am a graduate of Yale University (A.B., 1947), and have an M.A. degree from Harvard University (1948). In addition, I have completed two years of work toward a degree of Ph.D. at Harvard.

My major studies have been in history, government, and related subjects, with concentration in United States history. Part of my work at Yale was done under the wartime Army Specialized Training Program in Russian area and larguage studies. The graduate work which I have done has included research and writing in seminars as well as class study.

During World War II, I had approximately two years of administrative and teaching experience with the Information and Education
Branch of the Army. After serving as a lecturer, I was sent to the
School for Personnel Dervices, Washington and Lee University,
Lexington, Virginia, and was premoted to Administrative MonCommiscioned Officer in the Information and Education Office, Camp
Pickett, Virginia. For one and one-balf years in that position, I
aided in the development of an education program for all permanent
personnel at that camp. I was in direct charge of the program of
weekly classes and discussion groups or history and current events.
These classes covered such topics as: the progress of the war,
the U.S. and its allies, and information about the enemy. My
duties included supervising and inspecting classes, training instructors, doing research and preparation of class material,
lecturing, planning displays, developing news dissemination media,
and doing educational counselling. This work necessitated close
cooperation with the Intelligence and Security officers of the camp.

I am twenty-six years of age and unmarried. I am a veteran of world war II, but not a member of any reserve.

I should prefer a position involving historical research or some related field, but would be interested in any opportunity that might be available. If there should be an opening for which

my education and experience would qualify me, I should appreciate being considered for it. My academic records, personal and academic recommendations, or further details concerning my military work will be supplied if desired.

Sincerely,
Lee H. Wigren

In August 1976 Mr. Wigren agreed to be responsible for establishing and managing a counterintelligence production element for the CI Staff. He has continued in that capacity up to the present time, in addition to serving as the nominal focal point for one of our more important CI defectors. Although he took the publication assignment with some reservations, he has done an excellent job of sponsoring, processing and publishing a variety of important counterintelligence documents for use with foreign and domestic intelligence and security services. He is well aware of the widespread respect and admiration for his achievements in this position, both in the processing of written studies and presentations which he makes based on his extensive counterintelligence background and knowledge. While he might find better acceptance with some operational background, there are also special advantages and strengths which derive from the depth of headquarters staff experience which constitutes his career. He is a very cooperative and responsive officer and is now felt to be the best candidate to take over counterintelligence training for the Agency, which he will phase in to in the near future.

#### NARRATIVE COMMENTS

Indicate significant strengths or weaknesses demanstrated in current position keeping in project perspective their relationship to overall performance. State suggestions made for improvement of work performance. Give recommendations for training. Comment on foreign language competence, if required for current position. Amplify or explain ratings given in Section C to provide hest basis for determining future personnel action. Manner of performance of managerial or supervisory duties and cost consciousness in the use of personnel, space, equipment and funds, must be commented on, if applicable, if extra space is needed to complete Section D, attach a separate sheet of paper.

Mr. Wigren received a well-deserved prometion during this reporting period and moved in August to become the Staff Publications Officer. He made solid progress in the early part of the reporting period in making the transition from the narrow sphere he occupied in the previous Staff organization to the much more varied and challenging duties of the External Branch. By the time he left that position he had mastered its peculiar problems and proven his capability to manage its unusual personnel effectively and productively. He has retained responsibility for exploitation of the most useful asset in that branch and recently conducted the asset on a series of liaison visits which has resulted in a significant advance of our CI relations with the services concerned.

He has moved vigorously into the function of Publications Officer, which is one of the most important activities in the Staff. He was selected for this assignment because of his deep CI experience, writing ability, and his mature judgment in selecting and preparing CI information appropriate to various audiences. Cost-effective influences which he faces by participation in local government are also applied in his Agency work. He deals confidently with senior officers of the Staff and other components and gets the best effort out of his subordinates. His present assignment is tailor-made for him, and he exhibits no significant weakness in performing it.

Mr. Wigren is doing; a quite satisfactory job of running the R&A External Research Branch. When the Group was reorganized he was almost fully committed to Duty No. 3 above. While maintaining that function at a commendable level of performance, he has accepted the assignment of running a new branch which is an amalgamation of components of several previous R&A branches. Comprising, as it does, the disparate elements of defector, contract, and staff officers, Mr. Wigren has done a very good job of assigning work and getting it done by this branch. He gets along well with the personnel and seems well-suited to the kind of bread-and-butter research and analysis which the branch carries out. He is very serious and purposeful in his approach and can be relied on to carry out assignments effectively and on time. His long experience in CI matters and his knowledge of past activities and events in the Staff are a valuable adjunct to the branch chief function which he now fulfills: He is one of very few officers of the former Staff who have been selected to participate in the reorganization and reorientation of the CI effort. He has shown by his performance and attitude a quite acceptable capability to adjust to the present Staff requirements in terms of methodology and intellectual approach. He is conscientious and enthusiastic, and is still feeling his way to some extent organizationally and functionally in his new position.

He reflects genuine consideration for the costs of performing his functions.

Although Subject has only been under my supervision for some four months, I can but agree with earlier comments on his performance. Subject has an encyclopedic knowledge of the organization, function and history of the various Soviet intelligence and security organs. He is a highly skilled researcher and a gifted writer. His work in pregaring classified studies on the various aspects of the Soviet intelligence services and operations has been consistently impressive.

Subject has not had the field experience usually associated with his age and grade, but the lack of this has not been a drawback in his chosen research duties. In the future Subject will profit from seeking out opportunities for further activity rather than, as at present, waiting until assignments are given to him.

In addition to his research abilities, Subject is a highly effective a lecturer, much sought after by other agencies who are conducting training in the CI field.

Subject has encountered some slight problems with his staff during the reporting period, but these are essentially minor. In my opinion Subject is in the forefront of research personnel at his grade level.

I endorse Mr. Hood's Section D evaluation. I have found Mr. Wigren to be a wery dependable and resourceful individual in undertaking the extensive research commitments that the staff has undertaken in meeting very heavy obligations of sensitive liaison exchanges over the past year. Mr. Wigren is above all a gentleman in his attitude toward and treatment of others. I would say in the long run this works to his disadvantage because his contribution and his modesty tend to be overridden by the pretentions and bluster of others. Mr. Wigren has what has now become a most precious commodity to the DDO in counterintelligence and that is a grasp on many of the aspects of the collegial memory. He is therefore in a grasp on the contribute useful ideas for new projects, but to correct, the contribute useful ideas for new projects, but to correct, and modify suggestions and courses of action put up by others who do not appear that the facts. In the past six months the compartmented nature of Mr. Wigren's work has brought him more directly into the DC/CIOPS cognizance rather than the Chief of the R&A component as has previously been the case.

I think Mr. Wigren's strengths and weaknesses have been winnowed thoroughly in previous reporting. He is a recognized expert in his topic and as such he represents a considerable capital investment by the Agency in that kind of expertise. He can write and he can speak with unusual fluency on his specialty and in consequence is a key man in the ongoing research and study of sensitive Soviet intelligence and security organization and operations, particularly penetrations and disinformation. This statement is backed up by the production, in the form of briefing papers, memoranda, and other production, which goes outside the Agency. I have found his work to be extremely satisfactory, and more particularly, it is if he is given the time and specifications which are ingredients of his meticulous and thoroughgoing approach to his work. Mr. Wigren could carry on in his specialty at a very high level of competence in any other part of the Agency, or for that matter anywhere in Government where there is any interest in Soviet intelligence and security. I am firm in the view that he merits the overal SECTION E CERTIFICATION AND COMMENTS grading of "Strong."

Manner of performance of managerial or supervisory duties and cost consciousness in the use of personnel, space, equipment and funds, must be commented on, if applicable. If esta space is needed to complete Section C, attach a separate sheet of paper.

As was noted in the preceding fitness report, Mr. Wigren has a solid and broad knowledge of the USSR; its history, government, and intelligence services. He also has a useful working knowledge of Russian. Consequently he serves in C1/R&A as senior referent on the RIS, against which target most of the group's work is directed.

A key responsibility in R&A is to serve/the Staff's repository and memory for essential elements of information about the RIS. Mr. Wigren has organized this abundance of material effectively, has ensured its retrievability, and continues to update it.

Mr. Wigren consistently shows sound and dispassionate judgment. He does not jump to conclusions but digs out the pertinent facts and brings them into proper focus. He is skeptical without being negative. He accepts tasks and responsibilities without quibbling, and he carries out these assignments successfully without needing further consultation or guidance.

He is a quiet person who keeps a low profile; but when a significant issue is at stake, he is firm, even tenacious, when persuaded that the facts are on his side.

His supervisory responsibility is limited to providing guidance to one secretary whom he shares with others. I should not hesitate, however, to assign other employees to his supervision if our T/O permitted. His past record and his current performance (which demonstrates an ability to look ahead, to grasp essentials, to get along with others, and to be both fair and firm) show that he can handle a manager's role very well.

Mr. Wigren's responsibilities have broadened during the reporting period and will continue to grow. In part this change has resulted from the assignment of Mr. Edward Knowles to CI/OPS, but in equal or greater measure it is the product of Mr. Wigren's demonstrated ability to carry added responsibility with equanimity and resourcefulness.

Mr. Wigren has a very sound knowledge of the Soviet Union: its history, government, intelligence services, etc. He reads widely to keep his knowledge current. He maintains an excellent balance between a respect for the importance of facts and a creative faculty. Recently he has been increasingly concerned with ways to ensure a more regular, orderly flow of essential counterintelligence into this office and with restructuring the organization of this information to make it more readily responsive to our needs. His approach has been both imaginative and sound.

His work shows a very high level of organizational ability. This is reflected in his structuring of a report or speech, in the lucidity of his expression, and in his grasp of the inter-relatedness of the functions of this group. He is thoughtful and temperate; he does not jump to conclusions, show

Mr. Wigren does not need close supervision. He carries out tasks without seeking additional guidance or support when he encounters the usual difficulties. He relates well to others, and his creative abilities are frequently sparked by discourse and an exchange of views. He is exceptionally considerate and tactful in his dealings with other Agency employees.

At present he does not have supervisory responsibilities. Both his past record and his present performance show, however, that he is fully capable of quiet, competent leadership.

He has shown no deficiencies of any sort in respect to security or economy.

Mr. Wigren continues to Milarwill the high quality of performance noted in his preceding fitness report.

His analytic work is didrictbrized chiefly by his ability to view a case in perspective. He brings extensive experience to bear upon current undertakings and thus looks at a given RIS operation or project not as a picture in a frame but rather as one part of the history of Soviet intelligence.

His work is further characterized by flexibility, thoroughness, and sound judgement. He has a knack for getting at facts; he does not jump to conclusions. He organizes material well and writes with lucidity.

Mr. Wigren is also genuinely interested in his field. He reads and studies publications about the USSR during off-duty hours. He is able to read-Russian and uses this language skill in his work.

Although he does not need close supervision, he is very responsive to guidance. He is also a congenial person whose relationships with his colleagues are uniformly cordial. Although he has no present supervisory responsibilities, both his past record (continued)

Indicate significant strengths or marking sees demonstrated in current position keeping in proper perspective, their relationship to overall performance. State suggestions made for improvement of work performance. Give recommendations for training. Comment on foreign language competence, if required for current position. Amplify or explain ratings given in Section B to provide best basis for determining future personnel action. If every space is needed to complete Section C, attach a separate sheet of paper.

Mr. Wigren joined CI/RAA on 14 July 1968, so that this fitness report is his first in his present assignment. Consequently a significant part of his time has been used, during the period of this report, in familiarizing himself with his job and its potential. His performance, nonetheless, has been consistently strong.

He brings to his assignment an excellent background, both academically and in terms of Agency experience. He shows consistently sound judgement and equanimity, an ability to sort out facts and to reach decisions on a factual basis. He seeks and welcomes guidance but is also fully capable of acting independently within his limits of responsibility.

Mr. Wigren has an excellent potential in the area of research and analysis. He has no present supervisory responsibilities. He is consistently aware of the significance of the cost factor.

with a good grasp of his material and is able Malphagent it effectively to audiences of widely varied sophistication. Since his last report, the basic orientation of SR/CI has changed, and is now directed almost wholly to the creation and exploitation of opera-The organization thus needs more urgently than ever the digested operational experience which it is Mr. Wigren's job to produce. This has made it necessary to apply strict priorities based on operational need and relevancy, which has been difficult for Mr. Wigren, who has no direct operational experience. He has not been able to get the most out of his people, nor give them the sort of close and consistent guidance which some of them require in the face of changing or sudden requirements. He has a tendency to be over-concerned with organizational and bureaucratic exercise to the expense of substantive production. Nonetheless, his real qualities came to the fore recently when he produced well and used his staff effectively on an important and complicated project. He is a distinct asset in his responsible and demanding job.

Mr. Wigren performs his duties with maximum economy.

NARRATIVE COMMETTS

Mr. Wigren is extremely proficient in handling his section from both the personnel and managerial standpoints. In addition, he is an expert on Soviet Intelligence in his own right and lectures on the topic to officials of this and other governments. He is particularly capable at training new researchers.

In reviewing his file today, I note that the Reviewing Official for his fitness report of a year ago noted his opinion that my ratings of Mr. Wigren at that time were too high. That opinion was not discussed with me or with Mr. Wigren. Perhaps the ratings were indeed too high, but I must say that considering the Fitness Report form and criteria in use at that time and his performance in relation to that of other officers in this branch and outside it, I would give him the same ratings today for that period.

The ratings in this current report will appear slightly lower than those of the last report. This is not entirely due to the different report form. Mr. Wigren's problems increased in both intensity and complexity during this period, and I do not feel that he met the increased burden with as much of an increase in performance as was necessary. This should not at all detract from my rating of his overall performance, which is still exceptional and only slightly less than outstanding.

Fishowler.

As Chief of SR's Research Section on Soviet Intelligence, Mr. Wigren's performance has continued to be superior in the same manner as described in Section E of last year's report. In addition to this he has workely closely with OTR on the revemping of the CI Operations Course. He has been particularly effective in organizing and leading briefings on the RIS given to chiefs and operations officers of foreign intelligence services during their visits to Washington, and in leading a seminar designed to assist SR personnel in handling liaison briefings.

His success is carrying out a planned approach to SR's CI research problems, using personnel who have relatively little substantive experience, has been especially gratifying.

SECTION E NARRATIVE DESCRIPTION OF MANNER OF JOB PERFORMANCE

Stress strengths and weaknesses demonstrated in current position. Indicate suggestions made to employee for improvement of his work. Give recommendations for his training. Describe, if appropriate, his potential for development and for assuming greater responsibilities. Amplify or explain, if appropriate, ratings given in SECTIONS B, C, and D to provide the best basis for determining

Mr. Wigren has excellent substantive background on the Soviet Union and, except for a two year period on a WE operations desk, has devoted his entire 9 years in the Agency to research on Soviet Intelligence in one way or another. His performance for the past year in a job formerly held by GS-14's and 15's can only be described as superior. He has not only assumed responsibilities greater than those of the previous incumbents; he has carried these out with a minimum of support and in a calm, mature manner which has earned respect on all sides. Although his analysts have often been relatively inexperienced, he has geared their assignments to their capabilities and subjects designed to increase their competence. His most important contribution during this period has been in the formation of an organized plan of research in response to Agency and external requirements, and the establishment of improved records and procedures to carry out this program.

Although Mr. Wigren would prefer eventual assignment to the field as an operational officer, it seems to me his greatest potential lies in the kind of research and support of operations he is presently performing. I would therefore recommend that future training be oriented along these lines rather than strictly operational lines, and that planning for his eventual field assignment should emphasize his knowledge of Soviet Intelligence and his ability to deal with other specialists in a "liaison" relation.

CTION E NARRATIVE DESCRIPTION OF MANNER OF JOB PERFORMANCE

Stress strength and weaknesses demonstrated in current position. Indicate suggestions made to employee for improvement of his work. Give-recommendations for his training. Describe, if appropriate, his potential for development and for assuming greater responsibilities. Apply or explain, if appropriate, ratings given in SECTIONS B, C, and D to provide the best basis for determining functions.

Mr. WIGREN has shown intelligence, initiative and originality in his approach to various assignments. He has calmly accepted heavy working pressures and has efficiently carried out research and administrative matters requiring the careful disposition of manpower and time. He has willingly accepted responsibility and made decisions on his own when the need arose.

It is recommended that Mr. WIGREN take a course on the Communist Party and one on management.

During the sixteen months that he has been under my supervision Mr. WIGREN has capably carried out assignments of a progressively more difficult nature. And he appears to have the potential to assume greater responsibilities.

### 2. For the Reviewing Official (continued).

Mr. Wigren has also asked that it be made a matter of record that, for a period of three months in 1956, he was acting chief of the Swedish Dosk and handled these responsibilities effectively. I have agreed to cite the extent of his responsibilities. Certainly the routine business of the desk was kept moving during this period. I have pointed out with respect to the manner of his performance of his duties that his fitness report is not an unfavorable one. The factors which have turned this annual fitness report into a personal crisis for him are the simultaneous deferment of his hoped-for promotion, and the deferment of an overseas assignment for him -- both of which actions naturally reflect on his past performance. I have pointed out that we have to require appreciably better than average performances from officers we send overseas, that I believe we have in the Branch at least one better qualified candidate for the overseas assignment in question, and that I am obliged to give the assignment to the person I feel is best qualified.

Perhaps understandably, Mr. Wigren continues to believe that this report is not a fair reflection of his performance. I have told him that I can go no further in attempting to explain my judgement and have asked that he discuss his situation with the Deputy Division Chief and/or the Division Chief. He agreed to do so.

## TRAILING REPORT MANAGEMENT FOR ECHALITY OF OPPORTUNITY (MFO)

Student: Lee H. Wigren

Dates: 12-14 Sept 1977

Employee No.: 006198

Office: DDO/CI

Service Designation: D

### COURSE OF SCRIPTION

The course is designed especially for people in managerial and supervisory positions. It is based upon the assumption that the Agency's ability to promote full utilization of all employees regardless of race, color, sex, religion, national origin, or age, depends upon the awareness and behavior of managerial/supervisory personnel. They have a critical role in making the decisions necessary to eliminate real or apparent discrimination and to promote productive work relations among employees who differ in race, sex, or culture. In fact managerial awareness and decisions have a great impact on the recommendations and efforts of EEO, For, Upward Mobility and other employees concerned with compliance and affirmative action.

#### OBJECTIVES

Through lectures, readings, films, group discussion, workshop exercises, and case studies, each supervisor, at the conclusion of the course, should be able to:

1) Identify some of the more prominent patterns of discrimination and describe their impact upon supervisory processes; 2) Have had the opportunity or been able to critically evaluate his or her own attitudes towards equality of opportunity: 3) Better contribute to the effective utilization of all employees by being aware of and sensitive to several creditable approaches to management behavior and actions; 4) Explain the historical background which gave rise to today's Equal Employment Opportunity Programs; 5) Articulate the Agency's progress in Equal Employment Opportunity Programs: 6) Describe what efforts the Agency is making to be fair to all employees, including describing such programs as the Upward Mobility Program, Federal Momen's Program and the Mispanic Program: 7) Be responsive to the complaint process and know what he or she, as a supervisor, should do when faced with a complaint from an employer; and 8) Articulate the significance and importance of major legislation, executive orders and internal CIA policies which affect the management of Equality Opportunity Programs.

Acknowledgment of Evaluation Board Functional Category

REFERENCE

Evaluation Board Precepts for Your Grade

. 1. Based upon an examination of your past assignments and duties, and after considering likely future assignments, you have been placed (subject to your signature below) in the functional category Evaluation Board purposes. Precise definitions of this category are contained in the Evaluation Board precepts for your grade. This placement is made in order that your performance, growth potential, and career planning may be judged against officers similarly placed professionally. YOU ARE URGED TO STEDY THE PRECEPTS AND ONSIDER YOUR OWN

- 2. In general, you should consider the following;
  - Categories are sharply defined. Competition is within categories, not between them. Thus, a weak B/OG performance is not strengthened by reclassifying it as B/OS.
  - A change in category after sustained performance in a different category may cause a temporary loss of momentum in your career advancement until you have demonstrated proficiency in your new assignment.
  - A category change should not be initiated for the period of a temporary, training or rotational assignment unless a permanent change of career track will follow.
- 3. If you believe that this is not the correct category for you because the substantive nature of your job more closely approximates another category or because you have made a permanent change of career track, please take the matter up through your command channel to secure the concurrence of your component of assignment or of your home base component, as appropriate, to a change of your category. Previously assigned and acknowledged categories will remain in effect until a fully executed acknowledgment of change is received by the Career Management Staff.
- 4. Please sign and date this notification in the space provided and return it to your Personnel Evaluation and Management Officer or to your Personnel Officer.

- 1. (5) During the period 20 October through 23 October 1975, twenty-seven Special Agents of this Service attended an intensive, comprehensive course of instruction regarding counterintelligence techniques as applied overseas, the instructors and facilities for which were graciously provided by your Agency. MEMORANDUM FOR: Director, Office of Training

SUBJECT

Recent Training for SELEVER/10 and SELEVER/11 under Project SELEVER

Reference: Memorandum for Director of Training Subject: Request for Training for SELEVER/10
and SELEVER/11 under Project SELEVER, dated

30 September 1965.

Africa Division wishes to express its appreciation for the excellent support and cooperation rendered by members of the Covert Training Staff and School of International Communism during the recent one-month training course provided for SELEVER/10 and SELEVER/11. In particular we wish to thank Mr. Alexander Sogolow of the Covert Training Staff, who not only handled the majority of the training but also spent considerable time and made a special effort with the trainees during evenings and weekends "handhoolding" them. We also wish to thank in particular the following members of the School of International Communism for their assistance: Messrs. Hugh Clayton, Robert Kehoe, Alvin Korsalski, Henry Pisanko, Henry Schreiber and Lee Wigren.

Chief, Africa Division

SECRET

MEMORANDUK FOR: Chief, 3R

ATTENTION: Mr. Lee Wigren

Mr. Joseph Zvans Mrs. Kay Grady Mr. Edward Knowles

SUBJECT: Paining program for three Swiss Federal Folice officers.

- 1. The Swiss Branch of the Eastern European Division wishes to express its appreciation to SR Division for its cooperation and support, in particular for the personal contribution of four of its officers, Mr. Lee Wigren, Mr. Joseph Evans, Mrs. Kay Grady, and Mr. Ziward Knowles, during the recent training program for three Swiss Federal Police officers.
- 2. Mr. Wigren's, Mr. Zvan's, Mrs. Grady's, and Mr. Knowles's uniformly excellent briefings on the Soviet Intelligence Bervices, their legal and illegal support structures, and their modus operandi contributed significantly to what we have reason to believe was a successful training venture. To this must be added the comments of the Swiss officers who pointed out that they were most impressed by the comprehensive and systematic development of the various themes which Mr. Wigren, Mr. Evans, Mrs. Grady, and Mr. Knowles presented and admitted that the briefings added a good deal to their knowledge of the subject.

Robert N. Crowell, Chief, RE/Switzerland

Advanced Counterespienage Course No. 1

- 1. The Advanced Counterespierage Course is a specialized course of two works' duration designed for CE expecialists and their supervisors. The Basic CE Course or equivalent experience is a normal presequinite for entry into the Advanced CE Course. The source is conducted on a seminar, round-table basis. Emphasis is placed on student participation during staff and cuest lectures. Time is allotted for reading the extensive material provided.
- 2. Specialized techniques of CE operations are amphabized. Courtex-espionage aspects of double agent operations, lisison situations, and defection are examined in detail. Special attention is given to the structure and media operandi of Soviet and Satellite internal and external clandestine corvices. Similar studies are made of the Mestern Services, as they currently exist and as they may affect Apency operations.
- 3. Each student is required to give a presentation before the class. This hour-long presentation is based on a problem assignment given the student by the staff. Exception is made where students have the field or headquarters experience in CE or a related field; such a student is permitted to give a one-hour lecture based on specific experience. The "canned" problems are selected to test students ability to do CE research, collate, make lorical analyses, and present ideas effectively to a seminar group.
- 4. This evaluation is based primarily on the student presentation, and to a lesser degree on participation in seminar discussions when conducted by the staff,

SmEnC-BnEnX

- 1. Fr. Migron ranked in the top bracket of a strong class. He contributed effectively in seminar discussions. He appeared to be alort, and to have a good grasp of CE fundamentals.
- 2. Mr. Wigron's presentation dealt with his basic exsignment in Staff C. The presentation was well organized and was a major contribution to the class's CE background.
- 3. In my opinion, Pr. Wigron has the background and group of CE principles adequate for a CE case officer and analyst.

(Information a Education Halisted Specialist, Aug. 1964 - Meb., 1946)

A. After completing the Army Treciplized Training Program course in Russian area and language crudien, I was assigned to the 18th Triantry, Vath Division, then at Camp Pickett, Va. thill with that unit, I conducted "crieftetion" Training country would never see background naturals on the war (April-May 1944).

Decause of my limited-mercice etatus, I was transferred to the Supply Section, Headquarters Tetachment, ISIE SCU, at Comp Pickett. While a clark in that unit, I performed the duties of a unit Info & Education lecturer -- lecturing on history and current events, maintring maps and bulletins on the buttle urass, and enrolling soldiers in correspondence courses. As a result of this work (Pay-July 1944), Fost Info & Education/Office.

The Fost Information & Education Office was clarged with the duty of planning, producing, and disseminating war information and non-highter, education for all troops permanently estationed at Camp Pickett and for a large hospital on the grounds. The purpose of this program was to help the troops to understand why and what we were fighting, and to understand their role in that fight. It was morale building through information.

As Non-Commissioned Officer for the Info & Education Office, I performed both administrative and functional duties. I sided in the development and execution of the policies and content of the education program, and was in immediate charge of the weekly instructional program. The following are the duties which I performed:

1. Prepared naterial for use in weekly lectures or discussions which all troops were required to attend.

- Info & Education Brane: in Washington supplied topical informetion for use in these classes. I expanded, revised, or supplemented it to suit it to the needs of our camp.

2. Trained zen to conduct lectures in each of 12 to 15 units; briefed their on prepared material each week; and inspected their classes.

- Bach company or unit was required to have one or more men with Euitable education or experience to conduct weekly classes on history and current events under the direction of the Info & Education Office. At triefing conferences, I discussed with them the topic for the following week, suggested means of presentation, and described general policies to be followed. I made periodic inspection visits to classes conducted by these men.
- 3. Lectured or conducted several discussions each week.

   The topics of these classes were the same as those conducted by other men: basic U.S. and world history, current events, back-pourd material on the war, the relation of the U.S. to its allies, the enemy, and the role of the individual soldier. These classes contained from 75 to 100 men each, with all educational levels represented.

ADDITIONAL LATERIAL FOR THE # 16. Pleck 2 (continued): (Information & Education Enlisted Specialist, Aug., 1944 - Feb., 1946)

- 4. Designed and prepared displays for war Information Centers in comp libraries, and in post headquarters. Developed visual sides for classroom use.
  - Displays consisted of pictures, posters, maps, and explanatory material dealing with various topics such as: The German Army, Growth of the Enganese Umpire, Mazilum, etc. Their purpose was to give a graphic presentation of background information concerning the war. The dicplay at post headquarters also had maps and news items dealing with battle areas.
- 5. Compiled and edited daily news sheet, broadcast daily news summaries, and wrote articles on corrent events for casp newspaper.

   At my suprection, the news disseminating media at Camp Pickett, were expanded by establishment of the news sheet and news is broadcasts. The news sheet contained late news bulletins, factual background material, and some editorials. The news sheet and broadcasts were necessitated by the remoteness of the camp.
- 6. Did educational councelling and encouraged enrollments in correspondence courses offered by United States Armed Forces Institute.
- 7. Maintained close cooperation with camp newspaper staff, Public Relations Office, the Special Services Office, and the Intelligence Officer.

I believe that my work as Mon-Commissioned Officer in the Post Information & Education Office at Camp Pickett, Virginia, from August 1944 to February 1946 would be valuable to the Central Intelligence Agency.

The job was given to me as a promotion. I received special training for it at the School for Personnel Services, Washington and Lee University, Lexington, Virginia. While performing the duties of this job, I received promotions in rank from Private First Class to Staff Sergeant. During the closing months of my nervice, I was in complete charge of the office in the absence of any full-time Info & Education Officer.

As the result of my work, I was invited to attend a conference of the Info & Education officers and non-commissioned officers of the Third Service Command at Edgewood Argenol, Baryland, and to address that conference on educational and counselling problems. Since my discharge was in process at that time, I was unable to attend. Upon discharge, I received a special commendation for my work from Colonel H.G. Paullin, Commending Officer of Camp Pickett, and a letter of recommendation from my superior.

(Copies of these letters, orders, and commendations will be submitted if necessary.)

# TERE A. INSOSTATION-EDUCATION OPECIALIST (LILITARY), (1944-46)

- (1) After completing the ASTV course at Yale, I was assigned to the Cloth Triumtry, Yesh Division, Camp Pickett, Yo. While there, I consisted "unionation" lactures occurring world news and beckground interial on the rar (Circle and 1984)
- (2) Because of my limited-service status, I was transferred to the Supply Section, 1812 ECU, at Camp Pickett. I performed the duties of a unit Info & Biucation lecturer -- lecturing on history and current events, maintaining maps and bulletins on battle areas, and shrolling schoiers in ISAFI correspondence courses (Nay-Yuly 1844). As a result of this work, I was premoted to the Post Info & Education Office.
- (3) The Post Information & Education Office had to plan, produce, and disseminate war information and non-military education for all troops permanently stationed at Camp Pickett, and for a hospital on the grounds. The purpose of that program was to help troops to understand why and what we were fighting, and to understand their role in that fight. It was morale building through information.

As Non-Counissisped Officer for the Info & Education Office, I performed both administrative and functional duties. I sided in the levelopment and execution of the policies and entent of the education program, and was in immediate charge of the weekly instructional program.

The following are the diffide T performed:

A) Prepared sates and the same of months of the same of circums in the elicit with the same of the sam

threined men to conduct itelayers in each of it to 16 unite; and applicable thor on use of the propered saterial once week; and inspected their classes.

I now periodic inspection visits to elsered latter.

C) Lectured or conducted several discussions each week.

- The topics of these classes were the same as those used by the other men: halic U.S. Victory; current world events; background material on the ran; the relation of the U.S. to its allies; the every; and the role of the individual colder. Classes contained 7t to ICC men each, with all levels of education represented in them.

D) Designed and proposed displays for War Information Centers in camp libraries and the post Leadquarters. Developed visual side

for claseroca and.

- Displays consisted of pictures, posters, maps, and explanatory waterial dealing with various topics, such as: "The German Army", "Growth of the Jupaness Empire", "Parided", "The United Nations", etc. The purpose was to give a graphic presentation of background information concerning the war. The display in the post headquarters had maps and news items dealing with battle areas.

 Compiled and edited duily news thest; broadcast duily news summaries; whote articles on surrent events for comp newspener.

- At my suggestion, the news-dispemination media at Comp Pickett were expanded by establishment of the news sheet and news broadcasts. The news sheet contained late news bulletins, factual background material, and some editorials. The news sheet and broadcasts were necessitated by the remoteness of the cusp.

F) Did educational counselling and encouraged enrollments in correspondence courses offered by U.S. Armed Forces Institute.

6) Maintained close comparation with camp newspaper stuff, the Public Relations Civice, Epocial Services Civice, and the Intelligence Officer.

The citigence Criticer.

To be better prepared for work in the Post Info & Education Office I was sent to the Cchool for Personnel Services, Washington & Luc I was sent to the Cchool for Personnel Services, Washington & Education University, Lexington, Va., for a one-month course for Info & Education University & Cotober-November 1944)

Upon completion of this course (with a grade of "Excellent"), I received a continiente, and a Military Compational Specialty Classification of <u>LCO LCZ4</u> (Information-Education Enlisted Specialist).

I believe my work at Mon-Commissioned Callier in the Post Info & Education Office at Comp Pickett would be valuable to Control Intelligation. The job was given to me as a preaction. I received special training for it at the School for Personnel Services. While perfecting the Job, I received promotions in rank from Private first class to stuff Sergeant. During the cloting menths of my service, I was in Education Officer.

As the result of by work, I was invited to attend a conference or the Info & Education officers and non-commissioned officers of the Third Service Command at Edgereod Arrenel, Paryland, and to address that conference in educational and counciling problems.
